

F.4.3.1: (index mismatch replace j with an i)

Replace

$w \models \mathbf{accept_on}(b) P$ iff either $w \models P$, or for some $0 < j < |w|$, $w^j \models b$, and $w^{0,i-1} \top^0 \models P$.

A word satisfies property $\mathbf{accept_on}(b) P$ if and only if P succeeds or if during the evaluation of P the expression b evaluates to *true*.

With

$w \models \mathbf{accept_on}(b) P$ iff either $w \models P$, or for some $0 < j < |w|$, $w^j \models b$, and $w^{0,i-1} \top^0 \models P$.

A word satisfies property $\mathbf{accept_on}(b) P$ if and only if P succeeds or if during the evaluation of P the expression b evaluates to *true*.
