5 MEETING ATTENDEE AUTHORIZATION

There was a formal presentation from DASC with the meeting requirements shared. The new rules at this point is if you are not a member of one of the 8 member organization or an observer of one of the entities that wants to become a member, you do not have a right to be on this phone call. Also, registration in the email reflectors will also be subject to the same terms of meeting participation.

The IEEE SA has a system for email and other project management. Until the IEEE SA system is in place, we will continue to use the email reflectors located on eda.org.

The requirements for participation as a voting member is based on being an IEEE SA Advanced member and other requirements the group has judged necessary such as a meeting attendance rule and any self-assessment fees. The P&P's of the P1800 group and higher level group will be examined and Chair Pieper will come back with information on this for the group.

ACTION REQUEST [Karen Pieper]: Bring back to the group information on membership requirements to participate in the working group from the applicable P&P's.

Karen displayed the revised Policy and Procedures of the DASC. Some on the call had not seen this.

Karen showed the list of IEEE SA entity member companies. It is often difficult to match email names with IEEE SA entity members. The list can be found [here](#).

Neil will contact all the technical committees and share the IEEE SA entity project membership rules for email aliases and alert members it takes effect now.

There was no update for the SV-BC.

There was no update from the SV-CC and Chas was not on the call to give one now. The week of DVCon was a holiday week from meetings.

The SV-DC has held only one meeting and limited feedback was given.

The SV-EC only held one meeting since the last WG meeting. Mantis 1356, multiple inheritance and Mantis 2605, coverage, are the two largest items the SV-EC is working on.
